EDUCATION

Wilfrid Laurier University Waterloo, ON
Honours Bachelor of Science in Computer Science, Co-op Sep 2023 – Dec 2027 (Expected)

- **Relevant Coursework:** Software Engineering, Database Systems, Algorithms, Computer Networks

PROJECTS

QueryPilot – Text-to-SQL Analytics Engine | *TypeScript, SQLite (WASM), Web Workers, Chart.js* 2026

- Built a **text-to-SQL engine** that parses plain-English questions into a query plan and compiles it to SQL, incl. **multi-step analysis** (period growth, top-N per group, cohort retention); **20/20** on an execution-accuracy benchmark
- Enforced **read-only access with 5 defence layers**, incl. a tokenizer-based SQL guard and **SQLite bytecode (EXPLAIN) checks**, with charts validated against the result; runs in the browser with no API key; **181 tests**

Mentis – Local LLM + RAG Memory Pipeline | *Python, E5 Embeddings, Vector Database* 2025

- Forked and worked through an open-source, **local-first RAG pipeline** in Python that parses PDF, Markdown and text notes, chunks them, embeds them with **E5 models** and retrieves matching passages from a **vector database**
- Studied its **modular, low-abstraction design** (ingestion, chunking, embedding, retrieval) and privacy-first approach, where all data stays on the local machine with **no cloud APIs**

EXPERIENCE

Kroll Toronto, ON (Hybrid)
IT Service Management Developer Co-op Jun 2026 – Aug 2026

- Applied **Microsoft 365 Copilot** and other LLM-assisted workflows to a review of **80+ service catalog forms**, turning a manual, one-by-one audit into a repeatable process and standardizing labels, help text and descriptions across Kroll's OnePoint portal
- Identified automation and consolidation opportunities across the catalog and presented findings from **4 workstreams** to Technology leadership
- Delivered **15+ Agile user stories** on ServiceNow, building catalog logic and front-end changes for the global self-service portal

Waterloo Regional Health Network Waterloo, ON
IT and Infrastructure Technician Sep 2025 – Dec 2025

- Managed **identity and access** for **5,000+ healthcare professionals** in Active Directory, improving security and efficiency
- Led the migration of **30+ medical departments** and **200+ executives** to a new hospital-wide domain with **100% system uptime**, training staff through the change

Eulix Digital Printers Mississauga, ON
IT Operations Specialist May 2024 – Aug 2024

- Replaced a manual asset-tracking process with an automated one covering **400+ client accounts**, cutting manual oversight by **30%** and speeding up technician response times
- Deployed and configured networked printing systems for **400+ organizations** across Ontario, integrating devices with client networks and print servers

Vaughan Medical Centre Vaughan, ON
Technical Support and Administrator (Part-time) Jun 2020 – Aug 2022

- Developed **NLP-based automation** to categorize incoming support tickets, decreasing resolution times by **40%**
- Implemented **AI-driven inventory optimization** in Excel, reducing supply order errors by **97%** and saving **50+ hours per month** for non-technical staff

TECHNICAL SKILLS

AI Engineering: Agentic AI, LLM Tool Calling, Local LLMs (Ollama), Text-to-SQL, Guardrails, Prompt-Injection Defence, Prompt Engineering, LLM Evaluation, Microsoft 365 Copilot

Languages & Tools: Python, TypeScript/JavaScript, SQL, SQLite, PostgreSQL, Node.js, Express, React, ServiceNow

Other: Use-Case Discovery, Documentation, Stakeholder Communication, Executive Presentations
